MAILBOXES

Effective February 1, 2017, the Board of Directors has approved the following specifications for all mailboxes throughout the Myers Mill Community. Changes to mailboxes - provided they meet these specifications - do not need Board or ARC approval.

- Maximum Size 12H x 12W x 20D inches
- Materials:
 - Box - Metal or composite material
 - Post: Wood
- Color:
 - Box: Black
 - Post: Black
- Mailbox post should be a 6" x 6" wooden post, 5ft from the ground to the top (not including the cap as shown in picture 3) and placed at 1'6" back from the street (measured from the curb edge to the front edge of the post).
- Mailbox Post Cap: Standard Square On top of the post (see example in pic 2 below). Copper and Black caps are approved. Anything other than that will need ARC approval prior to installation.
- Mailboxes with a locking mechanism is allowed provided they meet all other specifications in this document (check with the usps on their guidelines).
- Post must be PLUMB to ground, well maintained with limited wear and tear and sun damage, and securely attached to the ground.
- Numbers must be adhesive and placed on the right side and front of the box. Placing it on the left side in addition to the right side and front is acceptable.
